

DENISS JACENKO

hi@deniss.co
www.deniss.co

designer | developer | creative producer - since 2004

EXPERIENCE

2get.co

Founder/Developer/Designer
September 2016 - Present

Designed and built the company's iOS/Android apps, database, website, and REST API. Managed marketing, finances, analytics, production, and scaling. Launched a physical product and consulted other businesses.

JobsInLogistics.com

Senior Software Developer
May 2016 - November 2020

Led all new frontend initiatives, created a visual framework for multiple company websites, automated marketing/research tasks, launched a job post API, a job board, and landing pages that greatly reduced cost/lead.

TracFone Wireless

Front-End Web Developer
April 2015 - May 2016

Designed, developed, and debugged B2C/B2B web pages for the company's eight mobile brands in an agile environment. Presented solutions and mentored developers on best practices.

Apple, Inc

Technical Specialist
May 2013 - March 2015

Curated technical/business solutions for thousands of customers, developed and proposed operational changes, and managed sales teams in one of the busiest Apple locations on the planet.

Crew Miami

Web Design Intern/Developer
February 2013 - March 2015

Designed and developed engaging websites for the real estate industry. Studied the company's proprietary web software for connecting customers to an MLS database of properties.

Designerful

Founder/Visual Designer
June 2012 - July 2013

Created a website and brand identity for a company I founded to give realtors a marketing advantage in ad design. Negotiated deals and marketed services via my website, AdSense, and social media.
